## **ChemoTech releases its first animation explaining its latest R&D-project**

***Scandinavian ChemoTech AB is releasing a short animated video that explains its next R&D-project D-EEPC (Dynamic-ElectroEnhanced Pain Control™). This project can potentially become a revolutionary treatment for treating pain for patients with secondary bone cancer, especially located to the spine.***

The film is published on our website [www.chemotech.se](http://www.chemotech.se) and on our youtube channel with the link <https://youtu.be/KgVQWYrKgio>.
